PRESENCE CONTROLLER

Presence Controller

The screenshot shows the 'Presence Controller' configuration interface. It includes a title bar with a close button (X) and a red circle with the number 7 pointing to it. Below the title bar are five configuration rows, each with a red circle and number pointing to a specific field:

- 1** points to the 'Check-in message' text input field containing 'Hey are you still there?'.
- 2** points to the 'Random pop-up every' range selector, showing '1 min' and '2 min'.
- 3** points to the 'Auto close after' dropdown menu, which is set to 'Never'.
- 4** points to the 'Play audio notification' toggle switch, which is turned on (blue).
- 5** points to the 'Auto-log out after' dropdown menu, which is set to 'Do Not Log Out'. Below this dropdown is a small explanatory text: 'It is an amount of messages missed by attendee after which he will be logged out from the room'.

At the bottom of the configuration area, a red circle with the number 6 points to a blue 'Activate' button.

1. Check-in Message - a message that will appear in the pop-up on the participant's screen
2. Random pop-up every - point the range of time the pop up should appear
3. Auto close after - define the duration of the pop up on the attendee screen
4. Play audio notification - you can turn on the audio notification for the attendee
5. Auto-log out after – you can decide if you want to log out the attendee due to his inactivity. You can define after how many inactivities the participant will be logged out.
6. Activate – turn on the Presence Controller
7. Close
