SPOTLIGHTR INTEGRATION MANUAL

## DESCRIPTION

The purpose of the Spotlightr integration is to give you possibility to play videos that are hosted on your spotlightr.com account.
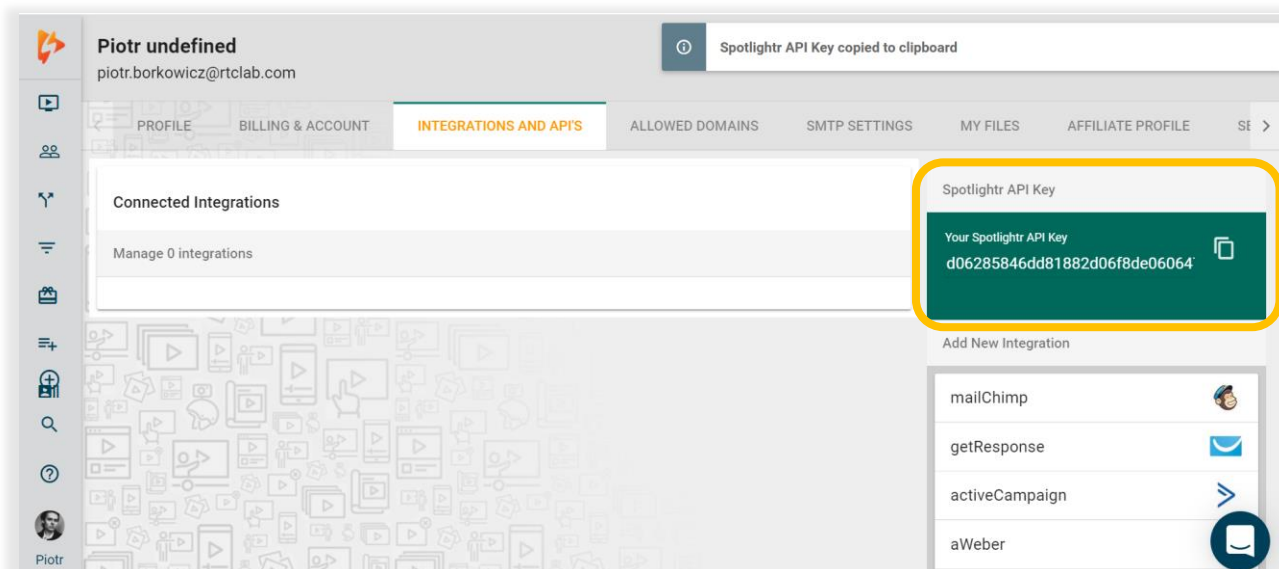

You can utilize this feature to show video materials you previously prepared to your audience.
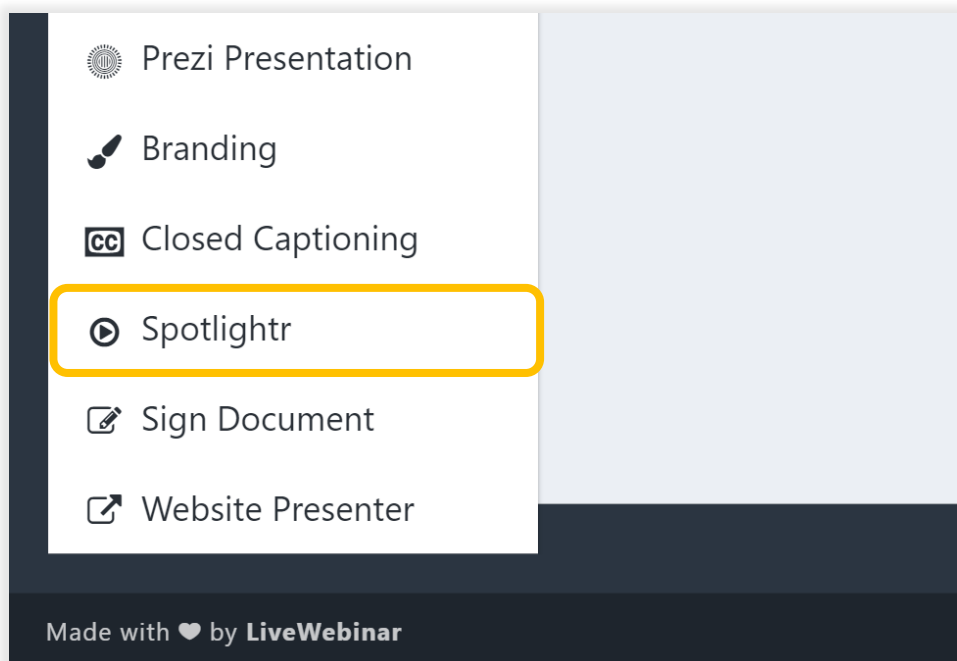

HOW TO SET IT UP

1. Log in to your account at spotlightr.com and go to your account settings. Then choose "**Integrations & APIs**" from the menu.

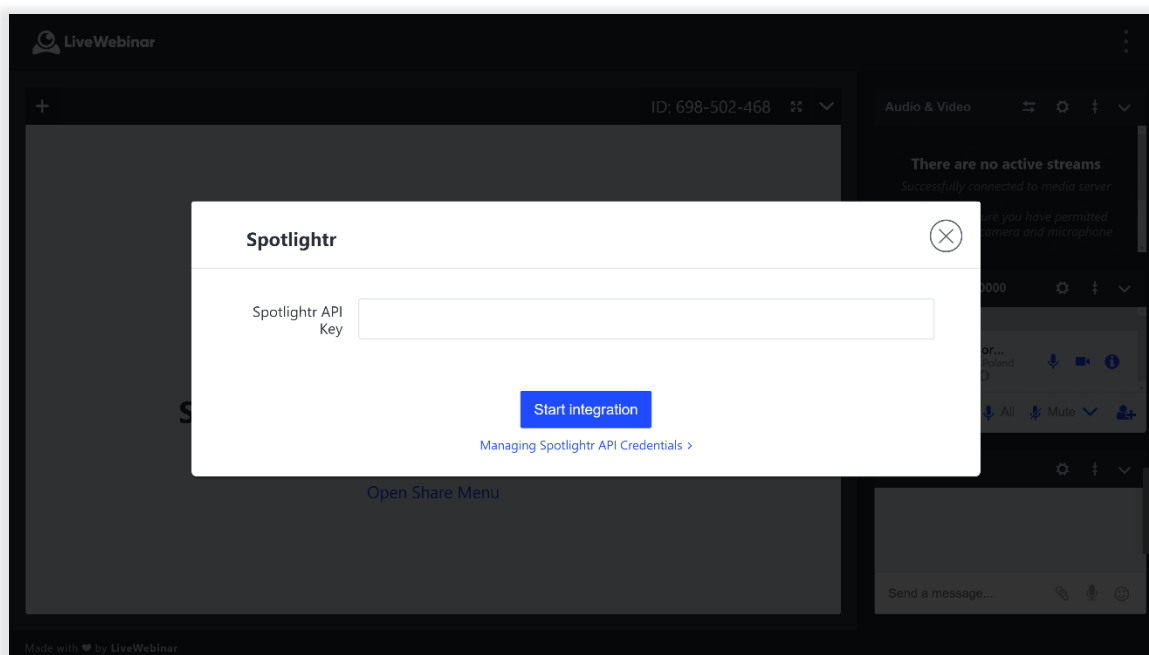

2. Copy to clipboard Spotlightr API Key that you may find in top right side of the screen.

3. Next, you'll need to insert the copied API Key into the input field you'll find after clicking on Spotlightr in the meeting room of your LiveWebinar account. To do, follow these steps:

    a. Click "**+**"in the left upper corner of the screen to open the dropdown menu.

    b. From the dropdown menu please choose "**Spotlightr**".

4. Paste the Spotlights API Key from your Spotlightr account and click the "**Start integration**" button, and you're done!

5. When you are connected with Spotlightr account you can present your videos to attendees by choosing the particular video clip and pressing "**Share**" button.
